The City is updating its General Plan – a project called “Modesto 2050: Our City. Our Future.”

The General Plan guides City decisions about transportation, jobs, housing, parks, shopping, services, growth, development, and more. We invite you to join us for an in-person community workshop to share your ideas about the future boundary of the city and what type of land use and development you want to see.

This workshop will also be held in other Council districts throughout the City; check out the website for more details.

Spanish interpretation will be available at all workshops.
